Dear Fellow Citizens:

As usual, your Selectmen will try to give you a picture of the Town's financial situation in condensed narrative form. The general pattern does not change much from year to year but some of the details filling in that pattern do. As usual, when we consider this year's proposed budget at Town Meeting on March 14th, by far the largest appropriation going to make up our tax rate for the coming year has already been determined at the annual Monadnock Regional School District meeting, a net amount of \$34,628.09 has to be raised for our share even after the application of State Foundation Aid.

To this must be added the net amount to be raised for Town appropriations of \$9,695.74 and the estimated amount to be raised for the County is \$1,700.00, making a total amount to be raised by property taxes of \$46,473.83. This is compared to the amount raised last year by property taxes of \$42,675.88.

As usual, we have held town appropriations to the same level as has prevailed for the last several years. Even though we are proposing an increase of \$450.00 in the overall highway expenditures to give long overdue pay raises, economies in other items have approximately balanced this amount.

The question which immediately comes to your mind as a taxpayer is, what will our share of the increased school district budget mean in taxes? Last year being a non-legislative year, we could predict your tax rate to you because all of the variables going to make it up were known. We predicted a drop of at least \$4.00 per \$1,000.00 in the tax rate and were pleased that it finally came out \$5.00. This year, as in any legislative year, it is a different story because the variables have not yet been acted upon by the legislature. These variables are the amount of Foundation Aid to be granted and the equalized property valuation percentages. We do know this much, Sullivan's percentage of

the school district population is up to 4.72% as compared to 4.33% last year. Since 50% of our bill to the school district is based on school population, our share of the cost over and above the increase already mentioned, would rise even though the 50% based on property valuation remained at the 2.96% of last year. As we have said, this last percentage figure is as yet unknown, but the chances are that it will be higher than it was last year.

The offsetting factor of this is our share of whatever amount the legislature appropriates for State Foundation Aid. As you are all no doubt aware, an increased appropriation is proposed but it should be pointed out that a good deal of the increase is taken up by increased school population throughout the State, and since the legislature never appropriates money enough to meet the Foundation Aid formula, our share depends on how we compare with our neighbors when it comes to slicing up the too-small pie. If we were to indulge in a guess at this point, it would be that our tax rate might have to go up slightly to meet the increased school costs.

The financial condition of the Town continues excellent and that is reflected in the favorable rate at which the Town can borrow money, which is among the lowest rates in the State. Our only indebtedness is our TRA note which, as you know, is almost completely funded by State TRA payments. At the end of this fiscal year, there will be only a balance of approximately \$650.00 to be paid, so that at next Town Meeting we can consider our next five-year road improvement project.

Through prudent business management of leaving no stone unturned to save or make a penny, we have come up with an operating surplus of \$2,989.34, which we hope you will vote into the capital reserve fund as you did with the surplus last year. As you know, our Town equipment each year gets nearer the time for replacement and by having money in the bank, we can get replacement

needs without putting an undue bulge in the budget in any one year.

All in all, we hope you will go along with the articles in the warrant as we have proposed them, particularly those in regard to appropriations because we feel that the budget as presented is best calculated to meet the needs of the Town for the current year. We hope also that you will take advantage of the last article of the warrant to discuss any matters of general or particular concern in regard to the administration of Town affairs so that we can best continue to serve you.
